

The theme of our annual report and strategic plan — **One St. Luke's** — encapsulates our achievements in fiscal year 2023 as well as the direction of our health system.

During my first year as St. Luke's president and chief executive officer, we reflected on our more than 150-year healthcare ministry, and we created an exciting plan to become an integrated, nationally recognized, award-winning health system. In 2023, St. Luke's received many accolades for superior clinical quality and patient care. We also achieved growth in operating revenue, patient volumes and services, and we continued to innovate.

Thank you for your support of St. Luke's extraordinary physicians, employees and volunteers as we work together to provide exceptional care to every patient, every time. We are poised to continue growing as a strong, independent health system. We are One Team. We have One Purpose and One Passion. We are One St. Luke's!

Andrew J. Bagnall, MHA, FACHE  
President and Chief Executive Officer

### Providing Exceptional Care
