**ABOUT THE LIFE & HOPE FUND**

Since Life & Hope Fund's inception in 2001,  
more than 1,000 patients have been helped.  
Through your support, the St. Luke's  
Life & Hope Fund is able to directly impact the  
lives of cancer patients and their families.

The Life & Hope Fund supports medically  
necessary care and services for patients  
with cancer or malignant blood disorders and  
supports St. Luke's Center for Cancer Care's  
genetic counseling program. This service,  
which is not covered by most insurance plans,  
provides assessment of a patient's family  
medical histories in order to assess the chance  
of hereditary related diseases such as cancer.  
Program participants receive education about  
the risk of disease inheritance and information  
regarding testing, care management, prevention  
and research.
