**FOR IMMEDIATE RELEASE**

### **ST. LUKE'S HOSPITAL OFFERS FREE MOBILE APP**

*The new app gives patients convenient access to information about St. Luke's locations, physicians, events, classes and more.*

**Chesterfield, Mo., May 13, 2011** – St. Luke's Hospital now offers a free mobile application, or app. It gives patients convenient access to hospital-related information while they are on the go.

By using the app, patients get quick access to information such as St. Luke's locations and turn-by-turn driving directions, a physician directory and details on upcoming events and classes. The app also allows a user to create a card for a hospital patient. A St. Luke's volunteer then prints and hand-delivers it to the patient's room.

St. Luke's information services team developed the app for the Apple® platform, and it is compatible with iPhone®, iPod touch® and iPad™. The app is available for download by visiting [www.stlukes-stl.com](http://www.stlukes-stl.com) or by searching for St. Luke's Hospital on the App Store<sup>SM</sup> on mobile devices.

#### **About St. Luke's Hospital:**

St. Luke's Hospital, located in Chesterfield, Mo., is a regional healthcare provider committed to improving the quality of life for patients and the community. The 493-bed, not-for-profit hospital offers more than 60 specialty areas including cardiovascular care and surgery, cancer care, neurosurgery and neurology, orthopedics, maternity and other women's health, general medicine, outpatient services, pediatrics and comprehensive surgical services.

St. Luke's is the only Missouri hospital recognized as one of America's 50 Best Hospitals™ by HealthGrades® (2007-2011), ranking among the top one percent in the nation based on superior clinical quality.

St. Luke's Hospital is also part of the Spirit of Women® Hospital Network, a coalition of hospitals and healthcare providers across the United States that ascribes to the highest standards of excellence in women's health, education and community outreach. For more information about St. Luke's Hospital, please visit [www.stlukes-stl.com/newsroom](http://www.stlukes-stl.com/newsroom).
