Women’s Health Excellence Award™

St. Luke’s has received the HealthGrades® 2009/2010 Women’s Health Excellence Award™.

St. Luke’s is the only Missouri hospital to receive the award and, according to HealthGrades, rates among the top 5% of all hospitals nationwide for providing quality healthcare to women.

The award is based on a study of patient outcomes across 16 common procedures and conditions such as heart care, vascular surgery, stroke care, respiratory services, orthopedic surgery and spine surgery. To determine the recipients of the award, HealthGrades analyzed more than 2.6 million hospitalizations using Medicare data from all 50 states from 2005 through 2007.

CMS Regulation Reminders
Infection Prevention & Control:
Hand hygiene is cited as the single most important method of preventing transmission of infection. In the hospital, we are required to perform hand hygiene:
• Before patient care
• After patient care
• Between glove changes

Physician Orders:
• Please remember to date, time & sign every order
• All telephone orders must be dated, timed & signed within 48 hours
• All orders must include drug name, dose (including dose unit), route and frequency
• PRN orders must reflect an indication

Thank you for your ongoing attention to these important requirements that allow us to provide the highest quality patient care each day.

Physicians: Please Remember Date - Time - Sign
Questions? Suggestions? Please contact Rachel Donlan in Physician Relations at 314-576-2402 or Rachel.Donlan@stlukes-slt.com

Did You Know?  
Vascular Lab Now Available on WebPINS  
All vascular lab results are now available on  
WebPINS under the cardiology tab.  
Questions? Please contact Lori Osdieck,  
manager of the Vascular Lab, at 314-205-4206.

You Asked—We Listened  
Looking to save paper? Would you like to consolidate  
how you receive your laboratory or radiology results?  
We have a solution! Please call Rachel in Physician  
Relations at 314-576-2402 to find out how to set up  
your laboratory results to ensure you are receiving  
what your office needs.

On June 1, 2009, St. Luke’s Hospital announced the  
It provides care to patients in the comfort of their  
homes when their physicians order home health  
services as a medically necessary part of their  
recovery.

The St. Luke’s Home Health team works closely with  
patients’ physicians to develop treatment plans. A full  
range of nursing, therapy, social work and aide  
services are available, and comprehensive care plans  
include assessments, education, treatments and  
therapies needed for recovery.

The service is available to patients throughout the  
community in need of home health services. For more  
information, please contact Lisa Heisserer,  
administrator of St. Luke’s Home Health Services, at  
314-205-6612.

Thank you St. Luke’s friends, physicians and  
employees who rallied to help meet the $300,000 goal  
for the Friends of St. Luke’s annual fund. Gifts from  
the Friends provide and enhance programs and  
equipment to improve the quality and accessibility of  
healthcare in our community.

Over 475 doctors, employees and grateful patients  
made charitable contributions this year. A $20,000  
challenge grant inspired over 150 people to give at the  
$1,000 level! Thank you to all Senior Staff and  
Directors who participated in this effort. We truly  
appreciate your dedication and support!

Office Staff Satisfaction Survey  
The 2009 Office Staff Satisfaction surveys will be sent  
and e-mailed to every office by early August.  
Please be sure to fill out your survey.  
Your feedback is important to us!

Mark Your Calendar  
The next office staff breakfast is August 14  
at 7:45 a.m. in Room #3 in the Institute for Health  
Education.
