Do you suffer from chronic obstructive pulmonary disease, also known as COPD?

You may qualify to participate in a clinical research study to evaluate the safety and effectiveness of roflumilast in reducing the frequency of COPD flare ups when added to Advair® or Symbicort®. This research is being conducted by doctors in your area.

To qualify, patients must:
- Be 40 years of age or older
- Have a current diagnosis of COPD and chronic bronchitis
- Be a current or former smoker

Qualified participants will receive, at no cost:
- Study-related care
- Study-related exams
- Study drugs

You may be compensated for time and travel.
